Bringing the Zoo to You!

WE BRING THE ZOO TO YOU

Geography is no barrier to participating in Minnesota Zoo education programs. Zoomobile ensures that, wherever your classroom may be, the Minnesota Zoo can be there, too!

Our team of trained naturalists travels to schools, libraries and hospitals throughout the state of Minnesota (and beyond!) bringing live animals, biological artifacts, theater techniques, storytelling and more. Zoomobile programs create a dynamic, personal and fun experience for students of all ages. The goal of all Zoomobile programs is to inspire a respect and a sense of stewardship for all life on earth. Our programs are designed for grade levels K-12.

Watch for these icons to create a Zoomobile adventure tailored to your curriculum needs:

Minnesota Natural Heritage

Planet Green: Conservation & Sustainability

Local to Global: Animals Here & There

Large Group Assembly Programs

45-minutes; up to 300 participants

Assembly programs are a dynamic, educational and fun way to teach students about animals, ecology, and the environment. They are also a fun addition to science fairs, Scout banquets, and family fun nights. Presentations can be adapted to all ages/grade levels.

Topics Include:

All Things Connected Join the adventure with animals from around the world and discover the interrelationships that connect all life on earth.

Cool Animals of the North Meet wild Minnesota animals up-close to discover how they are adapted for our crazy climate.

Tropical Rain Forests Explore the different layers of the rain forest, meet some of the species that thrive there, and begin to comprehend the importance of this complex ecosystem.

Nocturnal Adaptation Discover the amazing adaptations of nocturnal animals and how they survive in the dark of night.

Zoomobile programs support Minnesota State and National Science Standards.

Classroom Programs

45-minutes; up to 30 participants

During hands-on, interactive classroom programs participants explore topics in-depth and engage animals up close.

Topics Include:

Pre K–2nd GRADE

Animals in Motion

Critter Clothes—What Animals Wear and Why

Winter Animals

Animal Tales

3RD – 12TH GRADE

Birds, Bugs, Reptiles or Mammals

Endangered Species

Skull Science

Tropical Forests

Minnesota Wildlife

Wetlands/Habitats

So You Want to be a Zookeeper

Custom topics are also available.

Booth Programs

Booth programs are ideal for community gatherings such as fairs and festivals, and offer interactions with animals and naturalists. Booth programs feature 6–7 species of animals on a rotation—including some that can be touched—as well as animal artifacts such as furs and nests.
